Best Blind Bags of 2022

A waterfowling expert explains what to look for in a bag designed for the blind, and details the best blind bags of 2022.

Best Multi-Purpose: ALPS OutdoorZ Pit Blind Bag

BEST MULTI-PURPOSE

WHY IT MADE THE CUT:

"When duck season - SOB! - is over, this bag becomes a right nice tool hauler, with enough room for battery-powered drills and other equipment."

"If I'm going to pay more than \$50 for a blind bag—which isn't a terrible price for a bag of this quality—I'd like to be able use it for more than 107 days. Enter the Pit Blind Bag from Alps Outdoorz. Duck season ends, and you just swap those calls and gloves and boxes of shotshells for a selection of hand tools, tape measure, hammer drill, safety glasses, and work gloves, and you're good to go for the remaining 258 days on the calendar."
